

AIG Retirement Services Launches New Mobile App Capabilities to Help Nonprofit and Public Service Employees Save for Retirement

March 30, 2021

Enhanced digital experience now includes the ability to enroll in workplace retirement plans through mobile devices

HOUSTON--(BUSINESS WIRE)--Mar. 30, 2021-- AIG Retirement Services, a leading retirement plan provider for tax-exempt and public sector employers, today announced the launch of its enhanced mobile enrollment experience, bringing convenience and simplicity to employees as they prepare for their financial future.

Eliminating the need for paper forms and other administrative burdens, the modernized mobile app offers plan participants clear steps for enrollment from start to finish, information pre-fills to quicken enrollment, a user-friendly investment selection process, multi-factor authentication to secure personal information, and the option to “come back later” and ask questions of a financial professional before finishing. New hires and plan-eligible employees will be able to complete their entire plan enrollment whenever and wherever they prefer, right from their mobile devices.

“As the world becomes ever more digital, it’s clear that retirement plan experiences that are optimized for mobile are a must for employers and their employees,” said Scott Witter, Senior Vice President, Client Experience, AIG Retirement Services. “Now, with just a few taps on the phone, employees can take an important step in shaping their financial futures by enrolling in their workplace retirement plan at their own convenience.”

The AIG Retirement Services mobile experience is part of a broader virtual employee education and engagement program. Employers working with AIG Retirement Services can select from many different virtual and mobile elements—including QR codes, instructional videos and interactive education modules—to motivate their employees and ensure they are on the path to financial wellness. Additionally AIG Retirement Services financial professionals are available remotely to assist with online enrollment, host education sessions and conduct virtual meetings to discuss the benefits of enrolling.
